

It's Possible™ for you to say, “Let’s go home” after a fire.

A home’s exterior is its first line of defense against extreme weather and fire.

Prepare your home for the unpredictable with siding that is non-combustible, won’t burn and is recognized by fire departments nationwide.*

Listed for use in wildfire-prone Wilderness Urban Interface (WUI) zones in the western US.

CAL-FIRE COMPLIANT

**Recognized by Fire
Departments Nationwide**

*Hardie® siding complies with ASTM E136 as a noncombustible cladding and is recognized by fire departments across the U.S. including Marietta, GA, Flagstaff, AZ and Orange County, CA. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames

FIRST LINE OF DEFENSE

Hardie® siding is made of fiber cement.

- ✔ Non-combustible
- ✔ Will not ignite when exposed to a direct flame
- ✔ Will not contribute fuel to a fire
- ✔ Class A fire rating when tested in accordance with ASTM E84*
