Interior Spaces

Railing Systems

The CableRail cable infill system is slender, stylish, and easy-to-use. It's an ideal complement to any railing design, indoors or out.

CABLERAIL KITS

for Wood Frames

CABLERAIL KITS

CableRail Kits include everything needed to attach and tension a cable. Stair Kits are available.

CABLERAIL CONCEAL KITS

A low-profile alternative to our original CableRail Kits, including everything needed to attach and tension a cable.

CABLERAIL ALUMINUM RAIL KITS

Rail Kits contain the rails that run between the posts. Each kit includes a 6-ft top and bottom rail, a pre-drilled intermediate picket, and all necessary attachment hardware.

FITTINGS + BULK CABLE

for Wood and Custom Fabricated Metal Frames

Build your own assemblies to fit your needs using cable and special CableRail Quick-Connect® fittings. Each assembly must have at least one Tension Adjustment Fitting.

QUICK-CONNECT® LAG, SURFACE MOUNTS AND PIVOT FITTINGS

Wood Frame

QUICK-CONNECT® SURFACE MOUNTS AND FITTINGS

Custom Fabricated Metal Frame

PLEASE NOTE: Feeney does not provide frame on images pictured above. To learn more on frames Feeney does provide, check out our DesignRail® product offering.

Featuring Quick-Connect® Technology

Our unique stainless steel fittings with special Quick-Connect® technology attach to the cable in the field without tools. One-way jaws automatically grab and lock on after the cable is inserted, making assembly and installation fast and easy.

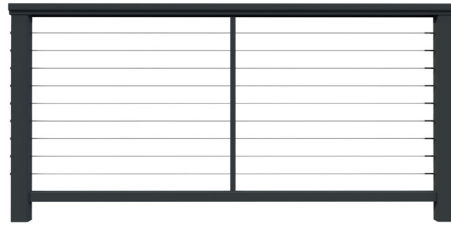

Lovely for the long haul, simply sophisticated, stylistically versatile and environmentally conscious, DesignRail® is the best choice for aluminum railing systems both indoors and out.

Durability of Aluminum with Innovative Design Details

All rails and posts are made from high strength 6000-series aluminum extrusions that can be cut and assembled on site using pre-engineered components that snap and screw together. Simply choose the style options that are best for your project to custom design your railing.
