FLOOR PLAN REDRAWS

2D BLACK & WHITE

If you're looking for the no-nonsense, straight-up floor plan to clearly showcase the home's layout, then the 2D black and white floor plan is the perfect option. Clear, simple and easy to use, potential buyers will garner a great understanding of the home's layout.

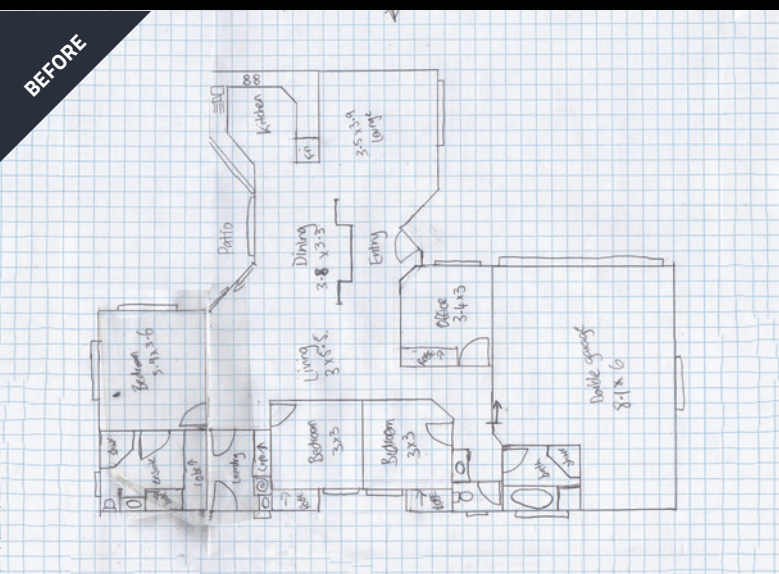

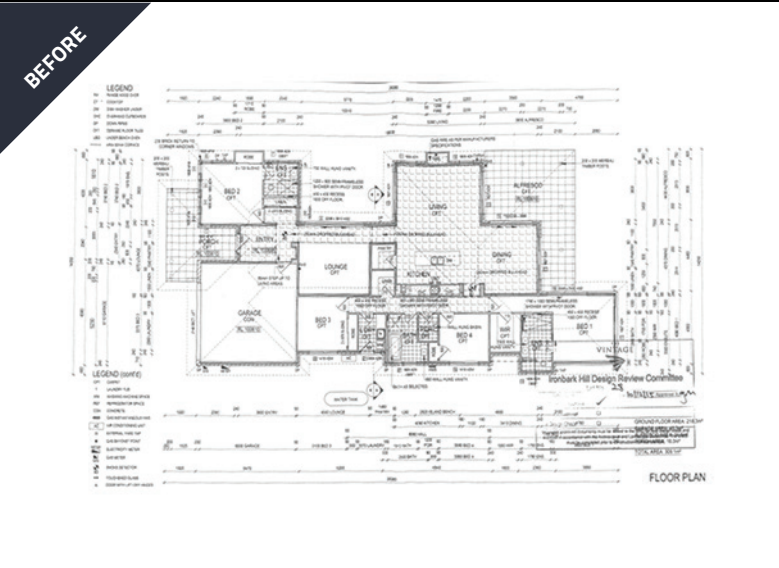

FLOOR PLAN REDRAWS

2D FULL COLOUR

Add an extra element of visual interest with a full colour 2D floor plan. Potential buyers will be able to clearly visualise the layout of the home from where their couch could go to any possible extensions or renovation potential thanks to coloured rooms.

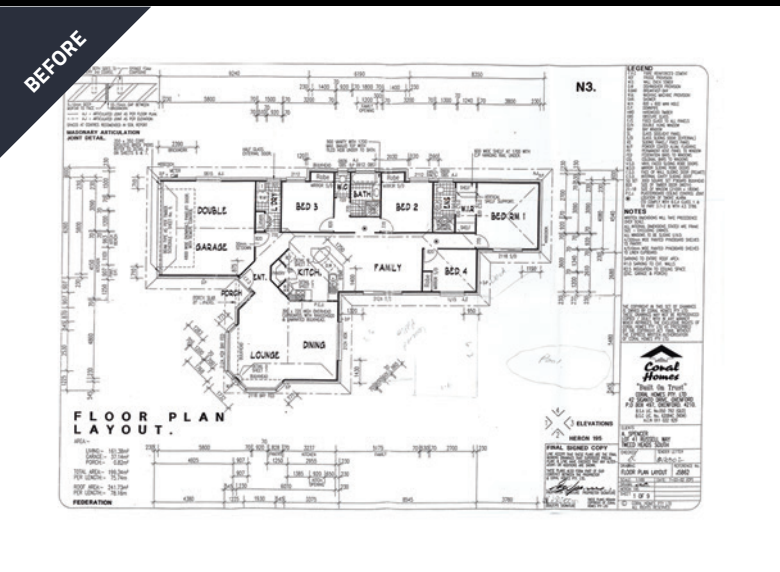

FLOOR PLAN REDRAWS

2D TEXTURED

Use a 2D textured floor plan to not only showcase the home's layout, but also features like textured flooring such as carpets, tiles and decking, as well as furniture. A 2D textured floor plan will highlight these features and provide much detail to potential buyers.

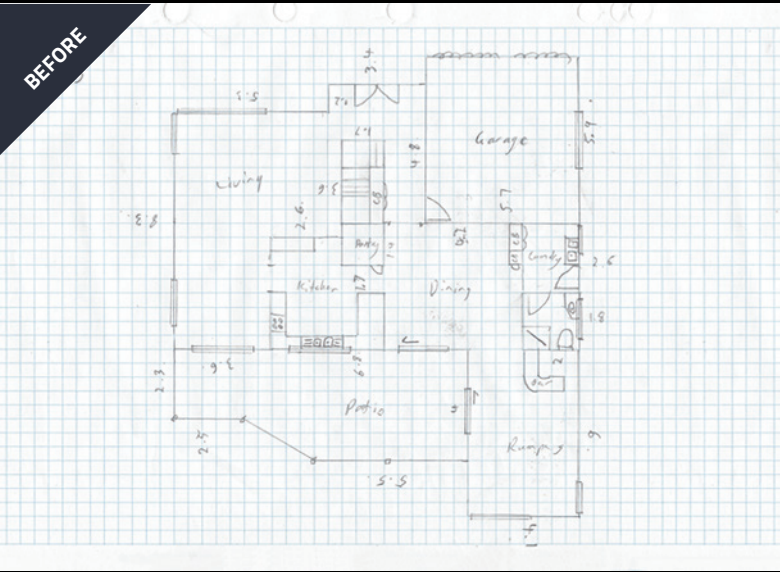

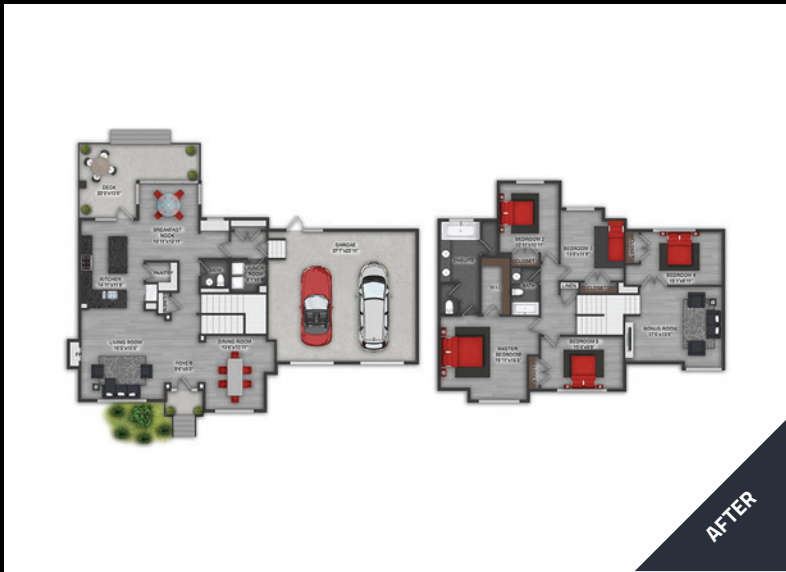

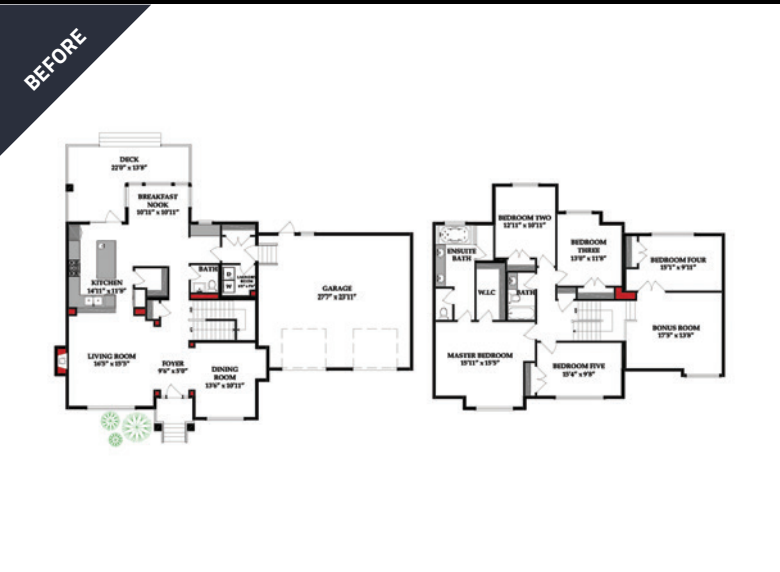

FLOOR PLAN REDRAWS

CUSTOM FLOOR PLAN TEMPLATES

Keep your agency's branding consistent and stand out from the crowd by creating a custom floor plan template to support your property listings. We will create a template that ensures the output is uniform every time, from placement of your logo, to wall dimensions, furniture and fixtures.

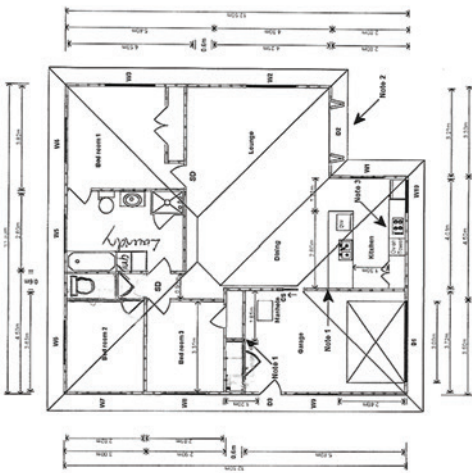

FLOOR PLAN REDRAWS

3D FULL COLOUR

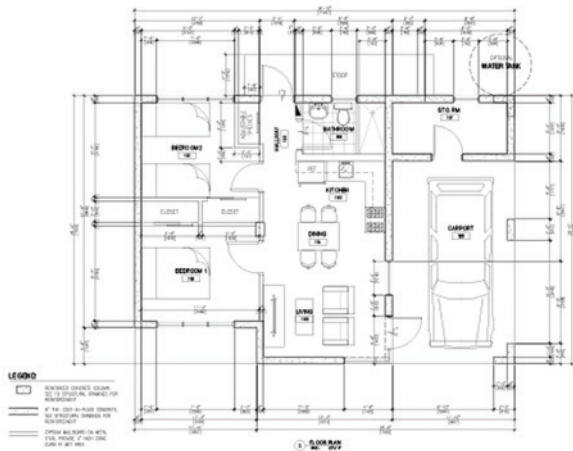

Almost as good as walking through the property, a 3D full colour floor plan shows the home to a potential buyer in greater detail. From demonstrating the flooring transitions to which way a door swings, a 3D full colour floor plan will show off a property and help attract top quality buyers.

FLOOR PLAN REDRAWS

FLOOR AND SITE PLAN COMBINATION

Add an extra element to your floor plan redraws and give your potential buyers an overall picture of property and land combined. Great to show off external features such as landscaping or pools, large blocks or multiple dwellings.
