

# Linxura Smart Home Bundles Make It Simple To Build A Smart Home

In addition to the Linxura Smart Controller and Wall Mount, bundles can be purchased that range in the ability to add basic smart home features, all the way up to total home automation. Custom bundles can include:

**SMART LIGHTING**

**SMART SHADES**

**SMART SWITCHES**

**SMART THERMOSTATS**

**BUILT-IN SMART SPEAKERS**

**AND MORE!**

Linxura will partner with you to install and configure systems of any size, enabling builders to offer buyers luxury smart home automation features with high margins for the builder.

## Smart Home Features Increase The Value Of Your Homes

In a survey by the National Association of Home Builders, **64% of builders** said that home automation is becoming a standard feature in new homes. **Properties without smart home features may become less competitive in the market.**

A study by Coldwell Banker found that **81% of buyers** are more likely to consider purchasing a home if it already has smart home features.

According to a report by the Consumer Electronics Association, **homes equipped with smart home technologies have the potential to increase their value by 3-7%.**

According to the Zillow Group Report 2023, **42% of buyers** rate smart home technology as highly important in their home search.
