

Podium Phones

Turn more calls into revenue.

Combine the power of a VoIP phone system, text messages, and customer data in a single communication tool to connect with more leads and customers—faster.

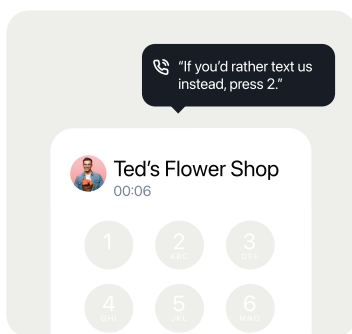

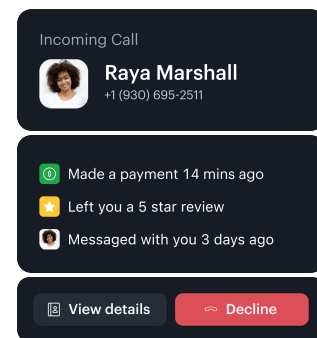

Capture up to 10x more leads.

Get the most out of every call in Podium. Save every new contact, automatically text missed callers, read voicemail transcriptions, and more to make sure you capitalize on every sales opportunity.

See more than who's calling.

Pick up the phone fully prepared with insight into every contact's past interactions—purchases, team notes, reviews, and more—to provide a more personal experience to customers.

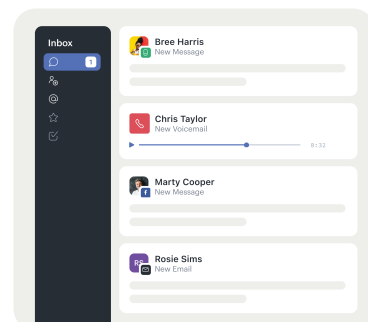

Save 20+ hours a month.

Convert as many as 40% of your phone calls to text messages so you and your staff can focus your phone time on calls that make you money. Manage it all from desk phone, web phone, or mobile app.

Call, text, and more—in one tool.

Simplify things for your staff and customers. Coordinate and manage all your customer communication in one place.

Web and desk phones to help you do more business.

Web phones

Make, take, and route calls from your browser.

Desk phones

Manage calls from a Podium desk phone.

Mobile app

Make and take calls from your cell on Android or iOS.

Prompt-to-text

Give callers the option to text you instead.

Missed call auto reply

Automatically send a text to every missed caller.

Voicemail transcriptions

Read voicemails right from the conversation thread.

Call recordings

Keep a history of your phone conversations.

Call forwarding

Forward phone numbers to separate devices.

Call routing

Route calls to the right person at the right time.

Get started fast.

Get up and running on web phones immediately and on number porting and desk phones in as little as **5-7 business days**.

See real business results:

45

Fewer minutes spent on the phone per day.

40%

Of inbound calls chose to text instead.

When we get a call, we're able to see what happened in their last few interactions and prepare for the conversation we're about to have.
