What is Native Strategies?

Native Strategies is a civil engineering firm that designs roads, bridges, community centers, and other critical infrastructure for tribal, federal, state, and municipal governments.

Challenge

Native Strategies has tripled in size each year, quickly outgrowing Excel templates. As a one-person finance team, Tyler needed to automate manual processes involved in the month end close, including credit card transaction reconciliation, and give tools to his remote sales team to do their jobs.

Solution

✓ Streamlined expenses

The Rho Card and mobile app eliminate month-end delays by simplifying expense reporting.

✓ Automated accounting

Use of Rho's QuickBooks Online integration reduced reconciliation process time, delaying the need for an expensive Netsuite upgrade.

✓ Managed reimbursements

The Rho app makes it easy to manage mileage reimbursements, perfect for mobile teams.

✓ Lean Finance

Rho helps Tyler operate as a one-person finance team for longer vs. hiring an accounting hire.
