

OzarkView
BY WINTECH

A transparent window supplier
partner removes the headache.

Window problems
are a real pain in the glass.

Late shipments. Poor product quality. Unresponsive customer service. Crazy lead times.

Your current window supplier may be blaming your team or installation methods for quality issues, acting like you're just trying to make their life difficult, and not taking your issues seriously.

You shouldn't have to beg a company to fix something that is wrong with their product. You shouldn't have to tell a window manufacturer how important on-time delivery is.

Your window supplier shouldn't overpromise and underdeliver.

201 Industrial Dr., | Monett, MO 65708 | wintechinc.com | (800) 365-4924 | (417) 235-7821

Make windows the last thing on your mind.

When your window supply is no longer a problem, the amount of time you now have to focus on other areas of the business has increased.

No more frustration with multiple calls to the manufacturer for the same problem. No more backburners or runarounds. No more lead time increases or missed deliveries.

Having a stocking program designed specifically for your needs alleviates worrying about window deliveries.

No more wondering if your business matters to them.

A true partner makes you a priority, understands how critical their performance is to your system, and lives up to their commitments. No more late deliveries, begging for help to fix problems, feelings of disconnection, feeling like you're in the dark.

No more waiting... for anything.

No more problems with windows.

WinTech works with your team to prevent window problems from happening in the first place.

WinTech's OzarkView windows offer superior performance and classic elegant appearance in a wide range of product offerings.

With fusion welded mainframes and sashes, composite-reinforced interlocking meeting rails and performance insulated glass, the OzarkView is the perfect fit for your Residential and Commercial needs.

NFRC DATA					AIR/WATER/ STRUCTURAL DATA
Window Type	Glass	U-Value	SHGT	VT	Rating
Single Hung	Low E w/Argon	0.28	0.22	0.44	LC50/R50
