# OUR STORY

When starting our brand, we witnessed a common problem in the market: people were used to using construction-grade doors made of low-quality materials that compromised both aesthetics and durability. Often overlooked due to high costs and complex installation, doors became the neglected piece of furniture in home upgrades.

Hence, we embarked on a mission to revolutionize the door industry by understanding customer needs and continuous product development. Our goal was to set new standards for door solutions, combining easy installation, cost-effectiveness, and a comprehensive upgrade in design and materials. Thanks to meticulous attention to detail and innovative material choices, including premium glass, high-quality surfaces, and durable aluminum, we have elevated the standard of door craftsmanship.

Since then, we proudly create doors that serve as gateways to unforgettable and enduring experiences.

## Our Core Values

### Expertise Driving Innovation

We communicate directly with consumers through e-commerce, understanding their preferences and adapting our offerings to meet their changing needs. We are pioneers in bringing new designs, materials, and manufacturing technologies.

### Customer Satisfaction

Our customers are at the heart of everything we do. We aim to surpass their expectations by industry leading warranty, customized solutions, exceptional services and a smooth purchasing process.

### Providing Exceptional Value

Through our manufacturer-to-consumer model, sourcing from top manufacturers around the world and sending products directly to customers, we are able to provide exceptional value by offering high-quality doors at competitive prices.

# Our Customer Deserves Better Doors

We aim to set a new standard for door solutions by placing a strong focus on high-quality materials. We fully adopt solid core door construction methods, implement a safe glass/ mirror system, and consistently replacing steel components with higher quality aluminum. We only use safe materials. All of our materials have passed strict testing, including Carb P2, SGCC, TSCA & EPA Certificate

## Solid Core

All of our doors are solid door constructed, provide superior durability, sound insulation, value & aesthetics

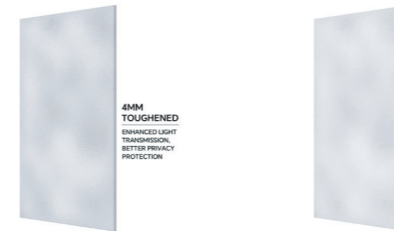

**Solid Core**

**Hollow doors**
