Freight — International

Shipper's Advocate's full service international logistics and global supply chain management partners have mastered the complexities of import and export cargo movement, including Customs, compliance, insurance, and finance requirements.

- Strategic associations with providers worldwide and overseas and domestic warehousing services support a complete suite of international solutions, ensuring exceptionally competitive and professional services.
- Decades of experience in Customs brokerage and compliance consulting are employed to make certain that Customs service expectations of informed compliance are met.
- Utilization of an open-book, cost-plus operating model and a robust reporting process provide the confidence and security of a partnership committed to transparency.

CONSULTATION • OPTIMIZATION • INFORMATION • SAVINGS

We wrote the rules the carriers use.
Now we put that knowledge to work for you.
