# *Introduction*

Established in 1977, Qingdao Yasen Wood Co., LTD produces high-quality interior and exterior wood doors for various markets around the world.

Owner and President, Mr. Shili Zou leads a team of highly experienced workers and staff at our 700,000 ft<sup>2</sup> manufacturing complex located in Qingdao, Shandong, China.

Yasen strives to make each customer's experience a great one by providing VALUE that is rarely matched within the wood door industry. Yasen's ISO 9001 and FSC certifications are just a subset of our well managed process controls which allows us to consistently meet and exceed our customer's expectations.

A laser focus on delivering high quality products with exceptional service ... all at a very competitive price ... is at the heart of Yasen's core values.

With nearly 40 years of manufacturing expertise, Yasen continues to develop and provide creative door solutions to meet the ever changing needs of our customers.

Our prime doors are not only different than the competition but also better than the competition!

Yasen's patent pending one-piece MDF face design eliminates the risk of stile and rail separation. Yasen also offers 3 different door core options ... PU foam core, particleboard core and solid wood core.

These choices give our customers flexibility to choose the door that best meets their needs.

## Interior Door Glass

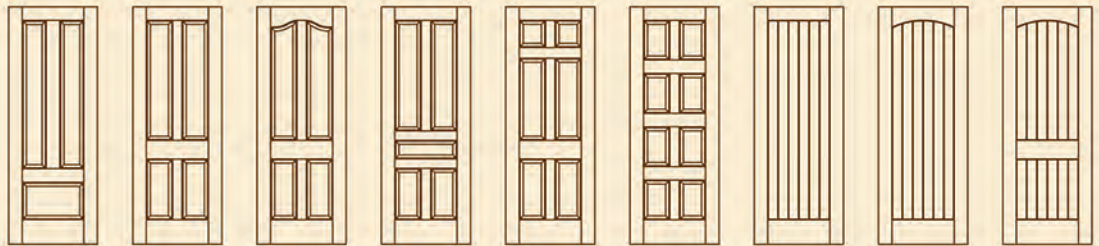

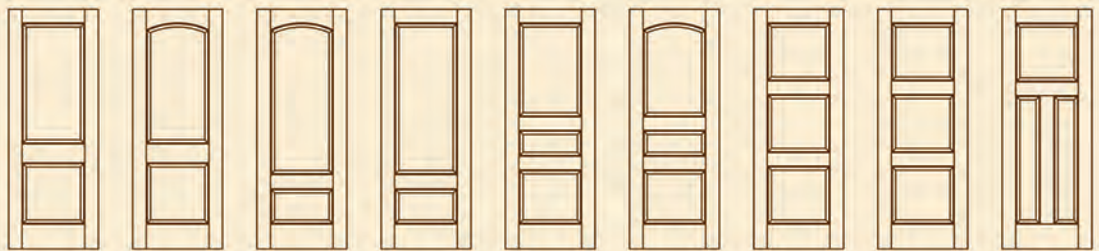

## Interior Door Wood Species

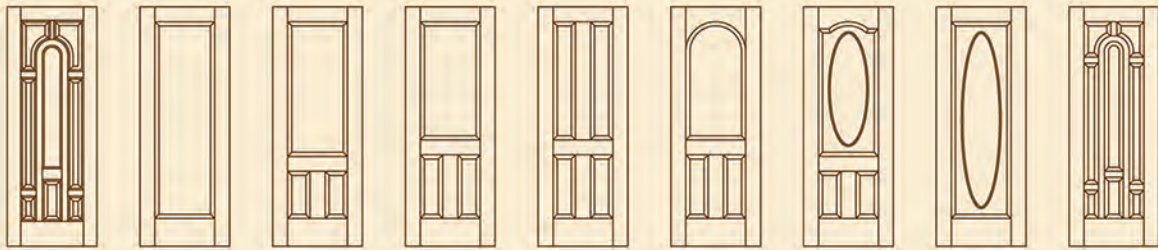

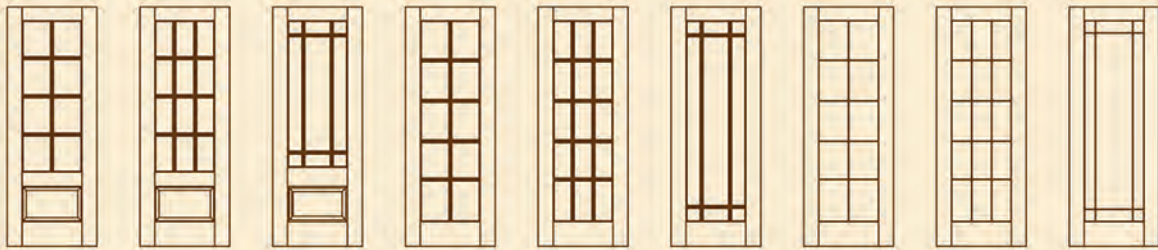

We know that first impressions are important and we would like to help you make an impression on everyone that walks through your front door.

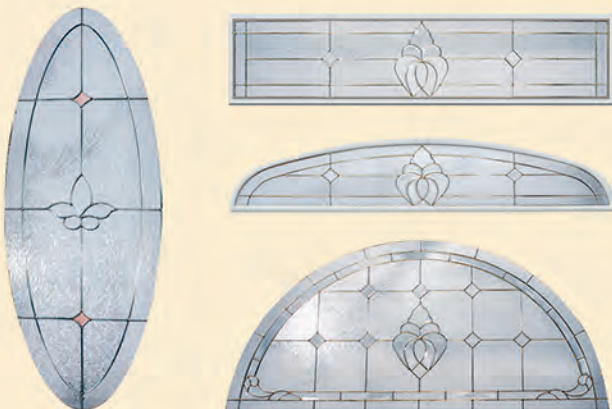

We are highly selective in the quality of materials that we use to produce each door. We offer many design possibilities that are sure to catch your eye.

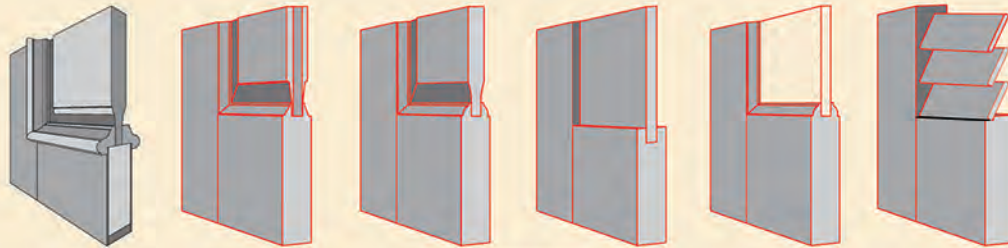

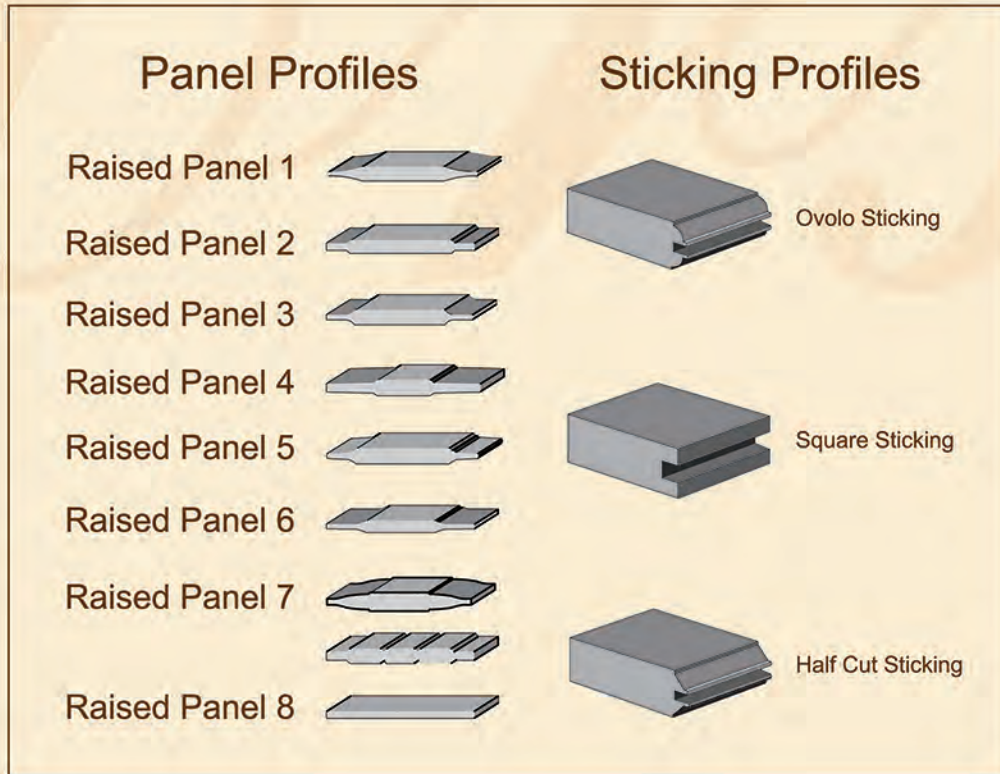

Since 1977

EXTERIOR Doors

Primed Doors: new patent pending design highlights a one-piece MDF face construction.

Benefits:

- Eliminates separation and cracking that can occur around construction joints.
- Door core offered in PU foam, making the door lighter and easier to handle. (standard wood and particle board cores also available)

Construction Joints

No Joints

Traditional Design

Improved Design
