| SIMPLE SITE MAP SOFTWARE | VISUAL COMMUNITY MAPS | INTEGRATED INTO WEBSITE | MOBILE & INTERACTIVE | AFFORDABLE PRICING | REAL-TIME INFORMATION |

LotVue® site map software makes it easy to view critical information and make strategic decisions without additional data entry or manipulation. Update your team quickly on sales and construction progress, and budget and schedule variances using a single source. Engage home buyers on your website with interactive community maps that provide the up-to-date lot information.

Supercharge Your LotVue Site Map

Take the power of LotVue to the next level in visual data.

Online Lot Reservation

Using LotVue's interactive site map on your website, homebuyers can pick their lot and reserve it with their credit card. It's that simple. Create a sense of urgency and speed up the buying process.

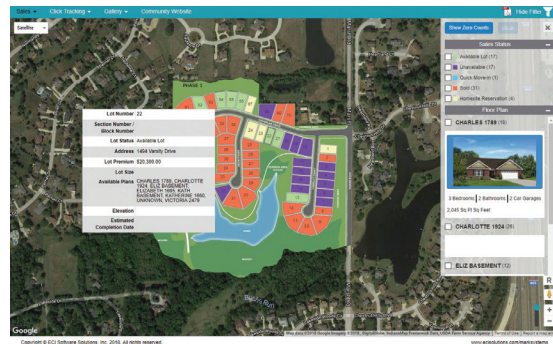

Lot Click Analytics

Get accurate and timely click data that shows which lots are being clicked on by prospective buyers. Lot click analytics aggregates click data across all communities into a single dashboard. Heatmaps display community-level click data that can be used to determine lot premiums and forecast their demand.

Google Maps™ Mapping System Overlay

Give buyers a better perspective of how community or individual scattered-site lots are situated among local destinations like schools, shopping centers, parks, and major roadways.
