## HYPOCHLOROUS ACID PRO

Superstratum Hypochlorous Acid Pro (500ppm) is a powerful nature-derived cleaner made of only salt, water, and electricity. This unique combination delivers a powerful professional strength performance that a cleaner with toxic chemicals cannot replicate.

**GENTLE**  
around people,  
pets, and plants

**12 MONTHS**  
long-lasting  
shelf life

**EXTRA  
STRENGTH**  
safe to use on all  
surfaces

### What is Hypochlorous Acid?

Hypochlorous Acid (HOCl) is a compound produced naturally by the human body. Our chemists replicated it outside of the body by running an electrical charge through only two ingredients - salt and water.

### USE FOR:

Highly effective surface cleaner proven to reduce mycotoxin concentration on building materials. Fog with HOCl to destroy aerosolized and airborne mycotoxins.

### CONCENTRATION:

This product contains a 500ppm concentration of active HOCL.

### SAFE FOR:

All surfaces and fabrics.

The Superstratum Hypochlorous Acid Pro is part of the full Superstratum System; a comprehensive solution for eliminating mold and destroying mycotoxins that is water-resistant and guaranteed to last for years.
