SMART POLYMER COATING PRO

Superstratum Smart Polymer Coating Pro is 30% stronger than our retail version and is protected from mold and microbial growth for over 10 years - even in the event of a flood.

WATER-RESISTANT

Superstratum utilizes Smart Polymers to create a revolutionary new type of coating for surfaces. Smart Polymers form coatings that can adapt and respond to their environment.

10 YEAR WARRANTY

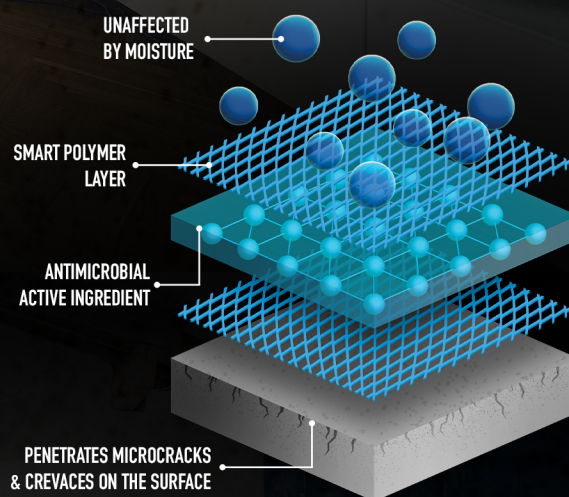

Superstratum Smart Polymer Coating Pro is protected from the growth of mold and microbes by EPA-registered antimicrobials.

INDOOR / OUTDOOR

Superstratum can last for over 10 years and will remain protected from mold and microbial growth - even if a home floods.

LONG-LASTING IN ALL ENVIRONMENTS

Does not encapsulate

Non-corrosive

Survives wet/dry cycles over and over

Safe for nearly all surfaces

No bleach, peroxide, quaternary ammonium salt, or metal

Safe for carpet, fabrics, and soft goods
