

Ezlo Protect

SMARTER SMART SECURITY

When Dealers Speak. We Listen.

The Ezlo Protect security platform is designed with the security dealer in mind. We are committed to the rapid deployment of dealer feedback and always providing a state-of-the-art system for your customers.

Ezlo Protect provides an open, secure, and hardware-agnostic platform, including the industry's first 10" touchscreen. With 345 MHz, Z-Wave, ZigBee, and WiFi on board, users can integrate anything, automate anything, and visualize everything.

The Ezlo Advantage

-  **Your brand front and center**
Private label the entire platform with your logo, your colors.
-  **Transparent pricing**
The lowest cost of services in the industry, with no hidden fees.
-  **Advanced automation**
Ezlo's MeshBots offer you more than simple scenes. If you can dream it, you can automate it.
-  **No limits**
Integrate and automate an unlimited amount of devices for your clients' homes.
-  **1000's of integrations**
Ezlo's open platform, offers the most smart integrations in the industry. And with our 90-Day Integration Guarantee, we continue to grow.
-  **345 MHz, Z-Wave, ZigBee and WiFi**
The first security platform offering you multiple protocols in one hub.
-  **7-day support**
First class customer support for partners and residents.
-  **Zero-cost startup**
No upfront commitments, resources or capital required.
