

Ezlo Protect **SMARTER SMART SECURITY**

Your Home in the Palm of Your Hands

Ezlo Protect is the professionally installed smart security platform that provides total control of your home. Receive peace of mind that your home is secure, and that your family is safe. While most security systems stop at security,

Ezlo has created Mios, the first OS for property, designed to let you integrate anything, automate anything and visualize everything. With an ever growing list 1,000s of integrations, Ezlo connects your home to your lifestyle.

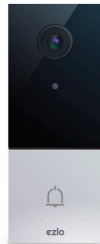

10" Touchscreen

Whether on your wall, or on your desk, view real time system status, video or control your MeshBots, anywhere in your home.

Control Your Home from Anywhere

With apps for iOS, Android, and a fully featured web portal, you can control your home from anywhere you're online.

Know who's at your door

Ezlo's InstaVue Doorbell let's you know who's at your door - even if they don't ring the doorbell

Unlimited Video Capabilities

With an Ezlo doorbell, or any ONVIF camera, integrate your smart security to video to monitor your home

200 Broadacres Dr, Bloomfield, NJ 07003
866-966-2272 • EzloProtect.com

Peace of Mind 24 Hours Per Day - 7 Days Per Week

EZ Smart Security +

Ezlo's proven platform has been deployed over 300,000 times and processes over 1 billion events each month.

With Ezlo Protect, rest assured that your home is protected, and you will be notified instantaneously - over IP or LTE, depending on your level of service.
