PAVESTONE® INTRODUCES NEW PANORAMA CONCRETE PAVE STONES
Celebrates Outdoor Living with Rumblestone at International Builders Show

LAS VEGAS (Jan. 20, 2015) – Pavestone®, a leading manufacturer of segmental concrete products for the commercial, residential, contractor, industrial and retail consumer markets, is extending the versatility of its paver line with the new Panorama Combo Series, which was introduced at the International Builders' Show (IBS) today. In addition to unveiling Panorama, Pavestone® will be demonstrating how to construct a variety of popular and customizable outdoor features using a several products including its Rumblestone at IBS in booth C1259 at the Las Vegas Convention Center from Jan. 20-22, 2015.

The premier Pavestone® product for vintage slate texture and timeless beauty, the Panorama Combo Series is a five-piece system used to create sophisticated courtyards, sidewalks, pool decks, garden paths, promenades and plazas. Available in three Panorama DemiCombo sizes and three Panorama SupraCombo sizes, the pavers are made from a no slump concrete mix, and average 8,000 PSI compressive strength and five percent or less absorption.

Pavestone® has made it easy, fast and affordable for homeowners and contractors alike to build a number of these desirable outdoor features with the advent of RumbleStone. These rustic-looking stones come in project kits that require nothing more than stacking stones in a pre-determined configuration to create fire pits, grill enclosures and benches, which are among the top five most popular outdoor living features according to a 2014 survey by the American Society of Landscape Architects. QUIKRETE® Polyurethane Construction Adhesive can be applied between the stones to strengthen the finished project. Pavestone® RumbleStone, which are available in kits starting at \$250, can also be purchased as individual units for customized projects like patios, walls and landscape borders.

“The backyard has always been a natural extension of the home, but today there are countless ways to transform that space into the best place for spending time with family and friends.” said Ed Fioroni, PhD, vice president marketing and sales for Pavestone®. “Our pavers and stone come in of wide variety of colors, sizes and textures, which gives homeowners

countless project choices ranging from intricate patios and retaining walls to simple benches or fire pits. Regardless of the project, our goal is to help enhance the backyard with beautiful, functional features that reflect the look and feel of the existing home.”

A comprehensive display of Pavestone® products along with hourly demonstrations will be conducted in the booth starting at 9:30 a.m. and ending at 4 p.m. with a lunch break from noon – 1 p.m. each day at IBS. Pavestone® will randomly award two people \$1,000 each day for attending a product demonstration as verified by having a show badge scanned at booth C1259. More information on Pavestone® products is available at www.pavestone.com and on [Facebook](#), [Twitter](#) and [YouTube](#).
