## **TRUFAST announces a new shot in washer and insulation pin assembly for attaching insulation to steel studs.**

**Bryan, OH, January 9, 2024**, TRUFAST, a brand of ALTENLOH, BRINCK & CO. US, INC., which is the leading US manufacturer of highly engineered attachment solutions for use in residential and commercial building material industries under the brand names of SPAX® and TRUFAST®, is pleased to announce the release of the Thermal-Grip Insulation Pin for steel studs.

The Thermal-Grip Insulation Pin for steel studs is designed for rapid insulation attachment to steel studs, ranging from 12-18 gauge. The pins are available in lengths from 1" to 6". The 2.25" diameter of the washer head ensures secure attachment to the insulation board. These insulation pins and washers can be used to attach EPS, XPS, ISO, and mineral wool insulation.

TRUFAST additionally offers a Thermal-Grip Insulation Pin for concrete/CMU applications, along with 2 models of a pinner tool for installing the insulation pins, the IP40D or IP50D Thermal-Grip Insulation Fastening Tool. Learn more at [www.trufastwalls.com](http://www.trufastwalls.com).
