

PRESS RELEASE

Exterpark Introduces the Magnet S System *A Revolutionary Advancement in Decking Technology*

Barcelona, January 10, 2024

Exterpark, a pioneering and innovative brand in decking solutions, is pleased to unveil the **Magnet S System**, a **groundbreaking evolution that redefines industry standards in decking**. *Invented and manufactured in Barcelona*, the **Magnet S System** stands as a testament to **Exterpark's** commitment to continuous innovation and excellence, endorsed by its four international patents—a clear reflection of the company's robust track record and expertise in the sector.

Magnet S System - Five Game Changers:

- 1. Patented invisible profile**, featuring a 4mm gap for optimal ventilation and drainage, prevents the accumulation of debris, ensuring an impeccable, safe, and hygienic aesthetic.
- 2. Screwless Installation.** Fast, simple, and secure. No need for pre-drilling or tools. Noise-free and splinter-free.
- 3. 100% accessible:** Our patented fourth-generation Clip **Magnet S**, made entirely of POM, a high-performance engineering thermoplastic with exceptional strength, is both robust and flexible. It allows an instant access to decks, walls, and ceilings. Easy maintenance: Simple board replacement and reusability.
- 4. 3x faster.** The easiest and fastest installation: Place and lock in a single motion in just 3 seconds. Cost-effectiveness and efficiency: The **Magnet S** installation system significantly reduces installation time and costs.
- 5. Aluminium joists.** Provide stable foundations with enhanced load-bearing capacity and stability, ensuring straightness, absence of warping, and an extended lifespan with a 25-year warranty.

A Legacy of Continuous Innovation.

Exterpark has set the industry standard over the years. With over **40 years of experience** in the sector and two decades of innovation and leadership, it proves once again that the **Magnet S** System is not a random creation but the result of a consolidated history. We have worked to deliver cutting-edge solutions used by renowned architectural firms such as Foster & Partners, Dar Consulting, Antonio Citterio, and Jean Nouvel Atelier, among others. The Magnet S System has already made a significant impact on iconic projects worldwide.

With the **Magnet S** System, **Exterpark** reaffirms its position as a leader in innovation in the decking sector. The **Magnet S** System is a turning point that redefines the decking landscape, offering speed, accessibility, and efficiency.
